În timpul utilizării mobilierului este interzis:

- amplasarea mobilierului lângă dispozitivele de încălzire și lângă pereții umezi, sau în încăperi cu umiditate relativă mai mare de 70%.
- ca temperatura elementelor de încălzire a mobilierului să depășească +40 C
- în timpul asamblării și folosirii mobilierului să stea pe panouri orizontale și vitrine
- utilizarea de agenți de curățare chimici pentru curățarea mobilierului
- expunerea la acțiunea apei

Atenționare: Dacă în mobilier există elemente care ar putea provoca deteriorarea, este necesar să le îndepărtați:

- fixați întotdeauna mobila de perete folosind opritoarele
- la montarea pe perete, folosiți dibluri potrivite pentru materialul peretelui, dacă nu sunteți sigur, contactați un expert. Instalatorul este responsabil în ultimă instanță pentru componentele de prindere
- respectați portanța maximă
