A bútorok használatakor tilos:

- a bútorokat a fűtőberendezések közelébe és nedves falak mellé, vagy 70%-nál magasabb relatív páratartalmú helyiségekbe helyezni.
- a bútorok fűtőtesteinek hőmérséklete nem haladhatja meg a +40 C-ot
- a bútorok összeszerelése és használata során a vízszintes paneleken és vitrineken állni
- vegyi tisztítószeret használni a bútorok tisztításához
- a bútorokat víz hatásainak kiténni

Figyelmeztetés: Ha a bútorban olyan elemek vannak, amelyek kárt okozhatnak, ezeket el kell távolítani:

- a bútorokat mindig rögzítse rögzítőelemekkel a falhoz
- falra szereléskor a fal anyagához megfelelő dübeleket használjon, ha bizonytalan, forduljon szakemberhez.

Az összekötő alkatrészekért végső soron a szerelő a felelős

- vegye figyelembe és tartsa be a maximális terhelést
